Subject Vermiculite Intermountain - 2, SLC site

Joyce;

In response to the question concerning the soil on the La Quinta property; the soil is from Richard Gordon's excavation site on the 200 South between 300-400 West. The soil will evidently be put back in place soon. It has nothing to do with the Utah Transit authority work being done on 400 West. Let me know if you have any questions.
